Repairing broken tiles on a Hearth Pad

Items needed for repair:

Rubber gloves

Putty Knife

[Clear RTV Silicone](#)

Instructions:

1. Check all tiles and remove any loose tiles from the pad
2. Scrape the grout out from the area where tiles were removed
3. Clean all loose debris from the surface using a small vacuum
4. Using Clear RTV Silicone, bond the tiles back into place and grout the pad.
(See Repairing Cracked grout instructional).
